### SUMMARY

---

I am a skilled and passionate software engineer with over 3 years of experience in developing robust and scalable web applications. With a strong background in backend development, particularly with Laravel, I have a proven track record of delivering high-quality, efficient, and secure software solutions.

### Professional Experience

---

#### Software Engineer, *Elites Tec*

10/2023 – present

- **Full-Stack Development:** Led the creation of responsive, scalable applications using Laravel for backend and React.js for frontend.
- **Mentorship & Team Development:** Guided junior developers, conducted code reviews, and implemented best practices to ensure code quality.
- **Client Interaction:** Collaborated closely with clients to gather requirements and deliver technical solutions that exceeded expectations.

#### Software Engineer, *InnovaDigits*

09/2022 – 10/2023

- **API Development & Integration:** Designed and implemented RESTful APIs to support web and mobile applications, ensuring secure and efficient data exchange.
- **Database Management:** Created and optimized complex database queries and schema designs using MySQL, ensuring high performance and scalability.
- **Code Optimization & Maintenance:** Enhanced existing codebases, provided regular updates, bug fixes, and introduced new features based on client requirements.
- **Collaboration & Teamwork:** Worked closely with front-end developers, UI/UX designers, and project managers to deliver seamless applications. Participated in code reviews and mentored junior developers

### Projects

---

#### Searchable Package

Laravel Searchable is package that adds easy customizable searching and filtering ability to Laravel Eloquent Models.

#### Hospital Management System

A Laravel-based Hospital Management System that efficiently manages patient records, appointments, billing, and staff information, enhancing overall hospital operations and patient care.

### Education

---

#### Bachelor Of Engineering

2018 – 2023

Tanta university
